Ancient Greeks

The key knowledge to support this topic

About 2,500 years ago, Greece was one of the most important places in the ancient world. The Greeks were great thinkers, warriors, writers, actors, athletes, artists, architects and politicians.

The Greeks called themselves Hellenes and their land was Hellas. The name 'Greeks' was given to the people of Greece later by the Romans. They lived in mainland Greece and the Greek islands, but also in colonies scattered around the Mediterranean Sea. There were Greeks in Italy, Sicily, Turkey, North Africa, and as far west as France.

They sailed the sea to trade and find new lands. The Greeks took their ideas with them and they started a way of life that's similar to the one we have today.

The world is full of myths and legends passed down through generations of storytelling. Most countries, towns and villages have their own special story filled with mystery and strange happenings to describe how something came to be. These myths and legends stories often have strong moral messages for their readers that can still be very relevant in today's society.
