Study of local history: The Triple Trawler Disaster, The Headscarf Revolutionaries

Some fishing boats are called 'trawlers' because they use a 'trawl-net' to catch the fish

During the 1850s there were almost 8,000 trawlermen who worked out of Hull.

Life at sea was incredibly hard, with men working for three weeks before coming home for about three days.

In 1968 three trawlers from Hull sank within a few weeks of each other and 58 men lost their lives.

A memorial service was held in 1968 to commemorate the lives of those lost in the Triple Trawler Disaster. Official enquiries were made into the sinking of each ship.
