History

Toys Year 1

Enquiry question: How have toys changed over the decades?

Remember when

- People and events from the past
- Vocabulary of the passing of time
- Changes within their life

Sticky knowledge

- -Most toys today are made out of plastic and use electronics.
- -Tamagotchi and Nintendo were popular electronic toys in the 90s.
- -A decade is 10 years.
- -People in the past didn't have many electrical toys.
- -As technology has improved, other materials have developed, such as plastic, which means toys are often safer to play with than they were in the past.
- -Toys can be sequenced to show how they have changed over time.
- -Artefacts in a museum are organised into different decades.

Key vocabulary		
Time	similar	
Materials	different	
Electronic	old	
Technology	new	
Plastic	past	
Wood	Present	
Fabric	Modern	
Metal	Compare	
Parents	Decade	
Grandparents	Timeline	

Sequence

National curriculum

Changes within living memory. Where appropriate, these should be used to reveal aspects of change in national life

Timeline specification		Enquiry questions Sources of information		
Timelines		They should ask and answer questions,	http://www.hull-curriculum.com/thomas-	
To focus on creating the timeline		choosing and using parts of stories and	ferens/	
		other sources to show that they know	visit	maps
-Artefacts -Pictures		and understand key features of events.	visitors artefacts	oral testimonies
-Pictures		What?	museums	diaries autobiographies
		When?	photographs	songs
		Who?	documentation	tools
			real life accounts	speeches
		How?	newspapers	paintings
			letters	clothing
	Title / focus	Lesson outline		
Lesson 1	LO: To be able to	Enquiry Question (5C) – What are the s	imilarities of modern	toys?
	explore a range of	[
	toys available today.	Modern toys today Explain to the children that we are going to be	ne looking at toys and he	ow they have
	Sticky knowledge:	changed over time.	o looking at toyo and the	SW thoy have
Most toys today are Made out of plastic		What kind of toys do you play with?		
		What materials are these toys made from?		
and use electronics.		What toys do you think your parents and grandparents played with when they were		
younger?		younger?		
		Children to bring in a toy of their own.		
		Children to create a 'My Favorite Toy' fact file What material is it made from?		
		- Why I like it.		
		- Who plays with it?		
		- Where was it made?		
		- Does it need charging?		
1 .	10.7	5 1 0 4 (5 0) 100 4 10 10		
Lesson 2	LO: To know what	Enquiry Question (5C) - What are the di	merences between yo	our parents toys
	toys my parents played with as a	and your toys?	what ton three tove the	v had as a child
played with as a Send letter home asking parents/careers what top thr and why? Ask if they are able to provide picture or all				
into school			iotaro or allow triell offi	ia to bring the toy
	Sticky knowledge:			
	Tamagotchi and	T		
	Nintendo were	Toys my parents/ teacher played with.		

Lesson 3	popular electronic toys in the 90s. LO: To know what	Explain if your parents were born in 1990 or 1980 that they would have played with different toys. What types of toys may they have played with? Why do you think that they played with these certain toys? EG. Material that they are made from. Venn diagram of toys that children play with today and toys that their teacher played with. Use pictures and real toy examples. What do you notice? GD: Why did they change? GD: Label what changes you can see. Enquiry Question (1) - Why have toys changed over the decades?	
	toys my grandparents played with as a child. Sticky knowledge: A decade is 10 years. People in the past didn't have many electrical toys.	Toys that grandparents used to play with. Explain if your grandparents where born in the 1960 or 1950 that they would have played with different toys to the children and to their parents. Remember whenlast week we looked at parents toys, your grandparents would have played with something else. Ask the children why they would have played with something different to them and to their parents. EG: cost, technology, materials. Timeline of toys throughout the decades. 1980 1990 2000 2010 2020 GD: What changes can you see from 1980 until now? All children: How long is a decade?	
Lesson 4	LO: To be able to compare toys and understand how they have changed over time. Sticky knowledge: As technology has improved, other materials have developed, such as plastic, which means toys are often safer to play with than they were in the past.	Enquiry Question (5C) – How have toys changed over time? Comparing toys similarities and differences. Similarities between these toys are Differences between these toys are Comparing - materials - cost - technology - size - use/purpose	
Lesson 5	LO: To recognise toys from different periods and sequence them chronologically.	Enquiry Question (1) – How have toys changed over time? Toy box muddle- chronology/ sequencing a specific toy over decades. Children order the toy cars from past to present.	

	Sticky knowledge: Toys can be sequenced to show how they have changed over time.	- How have the toys changed? - What changes do you see over time? - Which toy car would you rather play with? Why?		
Lesson 6	LO: To organise historical artefacts	Enquiry question: How have toys changed over the decades?		
	Sticky knowledge:	Toy museum - virtual visit of a toy museum. Using toys from the toy box muddle, children create a toy museum. Children to organise toys/pictures into a museum practically into decades. Creating labels, dates, pictures etc.		
	Artefacts in a museum are organised into different decades.			
		Children allow their peers to come round so that they are able to discuss the changes within toys over the decades.
